

WESTFALL SURGERY CENTER

Questions About Health Care Costs

Westfall Surgery Center, LLP is committed to providing you with excellent service in all aspects of your care, including answering your questions about your health care costs. With more patients moving to newer high deductible and co-pay insurance plans, we find many patients have questions about medical expenses. We are providing this information to make you aware of some of the ways you can better understand your potential expenses while receiving care at Westfall Surgery Center.

■ **Become aware of your insurance plan's "network tiers"**

Today, many insurance plans sort hospitals, Diagnostic and Treatment Centers (i.e.; Ambulatory Surgery Centers) and other care providers into "in-network" and "out-of-network" tiers. Typically, "in-network" care is less expensive than "out-of-network" care. Before you receive care, it's a good idea to contact your insurance company to help you understand how your health care providers' status in a particular tier may affect your health care costs.

■ **Westfall Surgery Center, LLP and Providers**

Westfall Surgery Center, LLP accepts most insurance plans (see list of Accepted Insurance Carriers on reverse side). You can also look up the specific accepted plans at www.westfallsurgery.com. Check with your physician arranging your services to determine in which plans that physician participates. You should also check with your physician to determine whether additional services such as anesthesiology and/or pathology will be required. You should check with your insurance plan to determine if those services are "in-network."

■ **Separate bills for some services**

In many cases you will receive more than one bill. These bills can include, but are not limited to, facility fee, professional fee, anesthesiology, and pathology. (See contact numbers below)

■ **Anticipated costs at Westfall Surgery Center, LLP**

You may contact our billing department at 585-256-3864 to receive an estimated cost for services or procedures provided at Westfall Surgery Center, LLP.
